

AMENDMENTS TO THE DRAWINGS

The attached sheet of replacement drawing includes proposed Figures 8H, 8I and 8J, which correspond to the figure descriptions appearing on page 18, paragraph [0062], of the specification, as originally filed.

- The drawing sheet [APPENDIX A] designated ORIGINAL DRAWING corresponds to the original missing drawing wherein Figs. 8H, 8I and 8J are identical to those of the Korean priority application.
- The drawing sheet [APPENDIX B] designated ANNOTATED DRAWING reflects proposed changes to original Figs. 8I and 8J, shown in red.
- The drawing sheet [APPENDIX C] designated REPLACEMENT DRAWING includes proposed changes to Figs. 8I and 8J.

For the record, the following facts are noted:

- The following figure description appears in the specification of the present application as originally filed:

FIGS. 8A through 8J are schematic cross-sectional views illustrating a twin-ONO-type SONOS memory according to a fourth embodiment of the present invention;

- The application, as originally filed on February 20, 2004, was accompanied by a certified copy of basic Korean application No. 10-2003-0020444, filed April 1, 2003.
- Korean priority application No. 10-2003-0020444 was incorporated by reference in its entirety in the present application; see the specification, pages 18-19, paragraph [0064].
- The present application was allowed on September 1, 2005. The issue and publication fees have not to date been paid. The period in which to pay the final fees expires December 1, 2005.

Upon review of this application prior to issuance, it has been noted that formal drawings depicting Figures 8H, 8I and 8J may have been omitted from the originally-filed application papers. These figures were, however, present in the certified copy of the Korean priority application filed on the same date. Accordingly, applicants hereby petition the Director to accept the drawings of Figs. 8H, 8I and 8J appended to said certified priority application, as forming a part of the originally filed application. No new matter has been added.

Attached as APPENDIX A, on page 5, is a copy of the missing drawing depicting Figs. 8H, 8I and 8J (prior to amendment).

A proposed amendment to Figs. 8I and 8J is presented in the annotated drawing which appears, as APPENDIX B, on page 6. Specifically, the conductive layer 930 of Figs. 8I and 8J has been changed from a double layer to a single layer. The change is proposed to correct an obvious error as is apparent from preceding Fig. 8H and the drawing descriptions in the specification.

Attached hereto, as APPENDIX C, on page 7, is a replacement sheet of formal drawing depicting Figs. 8H, 8I and 8J, which incorporates the proposed amendment to Figs. 8I and 8J.

Also attached is a complete photocopy of the certified Korean priority application (the *certified* copy of which is of record herein) including Figs. 8H, 8I and 8J.

The fee mandated by 37 C.F.R. §1.17(h) (\$130.00) is submitted herewith via Form PTO-2038.

Favorable action on this Amendment and Petition is earnestly solicited.

Respectfully submitted,

LEE & MORSE, P.C.
